NEW DOUBLE DAHLIA FLOWERED ZINNIA

This lovely new type of Zinnia has proven to be very satisfactory, and is already popular with those who appreciate a large-flowering strain of Superior Quality. The plants are strong and vigorous growers, fully three feet high, producing extraordinary flowers averaging six inches across and three or four inches deep, similar in shape to the Double Decorative Dahlia; see illustration. The range of colors include the usual shades and many unusual tones such as salmon, old rose, cerise, strawberry-red, etc., and the colorings, size and form have been greatly improved this past season. We offer an excellent mixture. Pkt., 10c; 3 for 25c.

IMPROVED LARGE FLOWERING DWARF DOUBLE SALMON ROSE ZINNIA

This extraordinary, brilliant salmon-rose bedding kind has been grown for several years, but the supply of seed has never been sufficient to meet the demands, but this year we are fortunate in having a good crop of extra select seed. Pkt., 10c; 3 for 25c.

AMPELOPSIS ENGELMANII
(Illustrated above)

It clings firmly to brick, stone or wood and is a wall of living green all summer, turning in autumn to the brightest shades of crimson and yellow, when it is fairly gorgeous. Set about three feet apart. Plants, 50c each; \$5.00 per dozen, postpaid. Seeds, per pkt., 15c.

CULLEN'S VELVET SOD LAWN GRASS SEED

(QUICK GROWING)

We wish to say that our Velvet Sod Lawn Grass Seed is the very highest standard quality and is not to be compared with ordinary mixtures.

A fine, velvety lawn adds much to the home surroundings. To have a fine, close, even sward, it is absolutely necessary to use the seed of the right kind of grasses. Good, dark color, and tufty, stooling out well from the bottom to make a compact lawn, and they must be able to stand the sun and drought as well without injury. Our mixture of grasses meets all these requirements. We use it here in Denver in our Landscape work and it has been much admired. We have sold it from coast to coast and it has given entire satisfaction in every location. It grows quickly and in a few weeks will make a deep green, velvety sward. A drought of several weeks will not kill this grass. It might dry and become very brown, but a good rain will bring it out green and velvety. **Lb., 70c; 5 lbs., \$3.25; 10 lbs., \$6.50; 25 lbs., \$15.75; postpaid.**

BERRIES, GRAPES AND RHUBARB

MAMMOTH CLIMBING ARBORBERRY

Mammoth Climbing
Arborberry

(Dewberry)

Most valuable of all climbing blackberries or dewberries. Grows on trellises or trees like a grape vine. A most delicious, sweet and finely flavored berry. Forty quarts have been picked from a two-year old vine.

Strong Tip Plants, 20c each; 3 for 50c; 12 for \$1.75; 100 for \$8.00.

Two-Year Transplanted Plants, 30c each; 4 for \$1.00; 12 for \$2.50; 100 for \$10.00.

LA FRANCE RASPBERRY

(New Giant Everbearing Raspberry)

A new fall-bearing red raspberry, the largest and best of the everbearing. Plants absolutely hardy and free from disease. La France has won certificates of merit and silver medals from various Horticultural Societies of the Eastern states, where it has been exhibited. **By mail, 30c each; 4 for \$1.00; 10 for \$2.25.**

A NEW HARDY GRAPE

Champagne—A strong grower and heavy bearer. Berries large size, coppery red in color and of delicious flavor. **Strong plants, \$1.00 each, postpaid.**

EVERBEARING STRAWBERRY SEED (Everbearing Strawberry Seedling)

Strawberries are easily grown from seed started in the house or under glass. They fruit the second year. Some of them may fruit in fall of first year. It is interesting to grow them from seed as one gets a great variety. The seed we offer is our own saving from the best Everbearing varieties, and is likely to produce some very valuable Everbearing kinds. **Seeds, per pkt., 20c; 3 pkts. for 50c.**

CULLEN'S NEW CRIMSON GIANT RHUBARB The Best and Earliest Sort Yet Known

The most vigorous grower. Is ready for table use in less than three months from seed or in less than two months from roots.

Makes beautiful crimson-colored sauce. Flavor sprightly and refreshing.

It is for use from very early in the spring until late in the autumn. As fast as stalks are pulled fresh ones will take their places.

Price of Seed, 10c per pkt.; 3 pkts. for 25c. Seed sown in open ground early in spring will produce large stocks in July and August.

Price of Roots, 30c each; 2 for 50c; 5 for \$1.00, postpaid.
